DEBIT CARD

You'll love the way it works!

Still fumbling with your checkbook and fishing for a pen in the checkout lane? Why not switch to a debit card from the credit union? It's far more convenient and will save you - and the people behind you in line - valuable time. Just swipe the card select credit and sign for the purchase, and a few moments later, you will be on your way. Your debit card also can save you money when you travel. Just be sure to contact the credit union to let us know your travel plans so that we can alert our risk managers that you will be using the card, not a thief. Also be aware that hotels and gas stations may place a hold on your funds when you use your debit card, but restaurants and other merchants usually don't. Apply for your credit union debit card today.

CREDIT UNION

Credit Card

Get the card that gives you more

Credit cards have come a long way from the first use of credit coins and charge plates as far back as the late 1800s. According to creditcards.com, these early proprietary versions were issued by oil companies and department stores to create customer loyalty and improve customer service. Fast forward to 2018 and while you may still have a department store charge card tucked in between your other plastic cards, if your wallet doesn't boast one of our credit cards you could be missing out.

With a credit card from the credit union, you'll get one of the best interest rates available. Our credit card also comes with the member service you've come to expect from your credit union. Check out all of the benefits on our website; then apply today to get the card that gives you more.
